

Recreate Yourself: Change & Elevate Your Story

A 2-day retreat focusing on changing the story of your life
to empower yourself to create the life that you want

(image by barcelonaalternativas.es)

This retreat is for womyn, 2-spirit, gender non-conforming & trans people who have experienced sexual abuse, gender-based violence and/or domestic violence (physical, emotional, verbal & financial)

Very few womyn and LGBTQ people receive the attention and support they need to overcome their experiences with sexual & gender-based violence. The results is that people have to figure out by themselves how to continue their lives after a violent relationship or episode, and often the fear, anger and despair stay with them for the rest of their lives, bringing difficulties in their social and family life.

The Healing Clinic Collective is thrilled to partner with Papalotl!

In this retreat you will be introduced to the Nahuatl feminine archetypes and guided to start walking a new path to re-claiming your birthright to feel safe and loved. Maria Veronica Iglesias was born in Mexico City, Mexico. She has a Bachelor's degree in Library Sciences and a Master's Degree in Mesoamerican Studies from the National Autonomous University of Mexico (La Universidad Nacional Autonoma de Mexico). She was initiated as a sahumadora (bearer of the Sacred Sahumerio) when she was 8 years old. Among other things she has studied medicinal plants, crystal therapy and healing with sacred gems. She is also initiated in the sacred knowledge of Mesoamerican shamanism and is a Portadora de la Palabra, bearer of the Sacred Word, as well as a Priestess of Ix'Cheel, the Mayan Goddess of Medicine. Today Veronica operates Papalotl: Honoring our Transformation, practicing gemstones healing and Pre-Hispanic medicine, and leading traditional temazcales (Mexican sweat lodge) and feminine rites of passage ceremonies.
